

MONEY FOR ST. JOHN THE BAPTIST SCHOOL. SAVINGS FOR YOUR HOME

We believe that providing the best possible education to young minds is critically important. So, we've developed the Energy Power Up Program to increase revenue for your school while decreasing the cost of energy at the homes of every parent, teacher and faculty member that participates.

Earn \$20 for every enrollment

For each Ohio household that selects Duke Energy Retail as their energy supplier, Duke Energy Retail will:

- Offer a special, discounted rate on electricity for everyone that enrolls in your program—that means a lower monthly household energy bill for enrollees
- Donate \$20 to your school for every enrollment—that's more funding for the supplies and resources your teachers and students need
- Sign up now and start saving*
 1. Grab a copy of your utility bill
 2. Sign up in three minutes
 3. Start saving!

**YOUR LOCAL
UTILITY**

WE SUPPLY IT

THEY DELIVER IT

EVERYONE WINS

We supply low-cost energy to your local utility.

They deliver it and pass along the savings to program enrollees.

Enrollees get a lower monthly bill and the school gets \$20 per enrollee.

We're not here to replace your local utility.

We're here to lower your energy bill.

When participants enroll in the Duke Energy Retail Education Power Up Program you will still have the same local utility. As a Certified Retail Energy Supplier in the state of Ohio, Duke Energy Retail can offer any Ohio customer a discounted rate on electricity. Program enrollees will still get the same bill from their local utility, and their local utility will continue to provide the same local service and repair. The only difference will be a lower monthly household energy bill for participants and added revenue for the school.

Start raising funds for your school and lower energy costs at home
